

Product Overview

The SS 301 is designed according to the latest U.S. Military requirements, utilizing the most advanced ballistic protection against handgun ammunition. The shell is comprised of multi-layered advanced composite.

The harness assembly consists of the standard 3 point harness with options for other harness assemblies available.

The reduced profile enables a wider peripheral and upward field of view for better situational awareness and unrestricted movement. The helmet can be fitted with ballistic or riot visors. The SS 301 is typically used by ground troops, police forces and special units and is ideally suited for urban warfare.

Design

The SS 301 isNIJ 0106.01 independently tested and is designed to defeatLevel IIIA threats from handgun rounds. SS 301 is a Kevlar based pressed processed material.

- ◆ **Protection:** Level IIIA Stand Alone
- ◆ **ABMM:** Advanced Ballistic Matrix Materials
