Threat Level: IIIA Platform: WMX1

The **VENGEANCE™** Series hard armor shield has been designed from the ground up with direct input from federal law enforcement agents. Two features include the patent pending **VENGEANCE™ Viewport** and **Elzetta Horizontal Handle system**

The exclusive **VENGEANCE™** Viewport maintains a wide field of view when compared to standard rectangular viewports while enhancing lower peripheral vision giving a clear forward view of obstacles and trip hazards.

The patent pending **Elzetta Shield Light with Horizontal Controls** incorporates a single point, ambidextrous light activation that eliminates external wires and produces a 1000 lumen wall of light.

The **WMX1** is a weapon mount upper shield platform designed for maximum coverage with a tapered lower that improves mobility in narrow passageways.

STANDARD FEATURES

VENGEANCE™ exclusive Patent Pending Viewport

- Ambidextrous weapon mount design
- Hybrid Composite Ballistic Construction
- Ambidextrous Molded High Density Foam Forearm Pad
- Black COREBOND™ integrated DURACOLOR™
- Durable Edge Wrap Protection
- NIJ 0108.01 IIIA Rated

Elzetta Horizontal Shield Light

- Steady 1000 Lumen output does not dim during mission
- Solid Acrylic Optical Flood Lenses provide natural “wall of light”
- Circuit Redundancy retains light output if one side is damaged
- Fully potted electronics for extreme durability
- Intuitive master cap battery lock-out
- High-frequency strobe option
- Made in USA

STANDARD SIZES

18x30
20x34
24x36
24x48

Custom sizes available for quote

OPTIONAL FEATURES

COREBOND™ LARGE PROFILE Positive ID Placard
Agency ID Placard – 3"x9"
Universal Rear Pouch Attachment System
Carry Bag
